The idea الفكرة

وقّاد means kindling: bright, sharp-minded, the one who lights things. The logo says it in two parts.

The grid. Four squares turned 45°, the language of Saudi institutions: structure, governance, systems that stand up to scrutiny.

The spark. The top square has lifted out and turned amber: the idea that comes out of the structure. On screen it ignites into a flame and settles back. In print it stays a calm diamond a board can sign under.

الشبكة هي المؤسسة والنظام، والمربّع الذي ارتفع وصار كهرمانياً هو الشرارة: الفكرة التي تخرج من البنية. على الشاشة تشتعل لهباً ثم تهدأ، وعلى الورق تبقى ماسةً هادئة.

The logo الشعار

Two lockups with equal standing. Stacked leads; horizontal fits wide, short spaces.
Pick the one that fits the space, and never build a third.

Stacked · the lead
Covers, social, the app splash, signage, stands, merchandise

Horizontal
Website and app headers, letterheads, contracts, email, slides, invoices

Anatomy مكوّنات الشعار

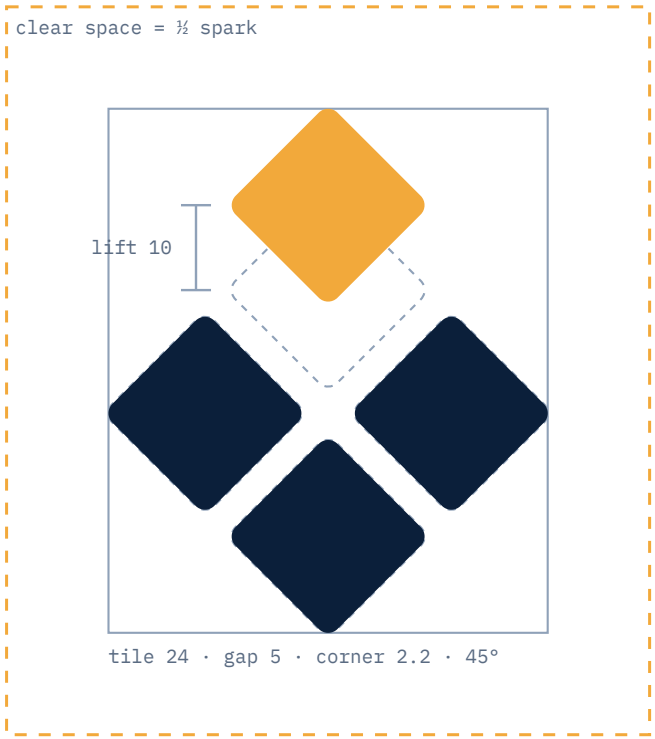

Three parts, always in the same relationship. A is the height of the name's alef.

PART	WHAT IT IS
Symbol	The grid and the spark. Horizontal: height A, at the start (right) of the name, gap 0.55 A. Stacked: height 1.3 A, centred above, gap 0.34 A.
Name	وقّاد in Reem Kufi SemiBold with a real shadda, outlined. Never retyped.
WAQQAD	IBM Plex Sans SemiBold, letter-spaced. Horizontal: under د ا ق, from the dal to the qaf. Stacked: the full width of the name.
Colour	Navy name and tiles, amber spark, teal WAQQAD. On navy: white with the amber spark.

The symbol الرمز

Four squares on a grid turned 45°. The top square lifts out along the diagonal and turns amber. It may stand alone once the name is known, or when the full logo appears nearby.

Tile	24 units, corner radius 2.2
Gap	5 units between tiles
Lift	10 units along the diagonal
Angle	45°, never rotated further
Clear space	½ x, half the spark's width
Smallest	16 px on screen, 6 mm in print

Clear space and size المساحة والحجم

x is the width of the amber diamond in the lockup you are using. Keep x clear on every side: no text, edges or other logos inside the dashed line.

Stacked
Smallest: 72 px tall on screen, 20 mm tall in print

Horizontal
Smallest: 120 px wide on screen, 35 mm wide in print

Colour الألوان

Navy carries the logo, amber is the spark and only the spark, teal is the Latin name on light grounds. Pale core lives inside the flame, on screens only. Ask printers to match the HEX values.

Navy

`#0B1F3A · RGB 11 31 58`

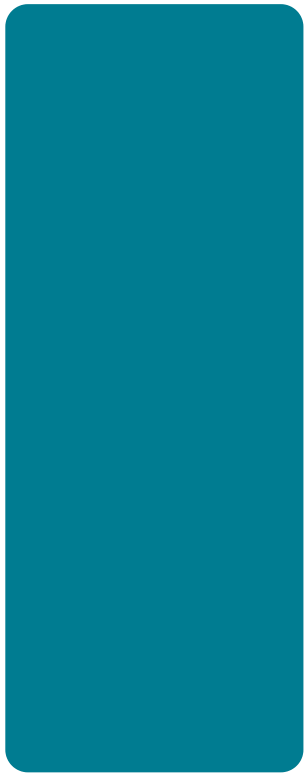

Tiles, the name, backgrounds

Amber

`#F2A93B · RGB 242 169 59`

The spark. Nothing else

Teal

`#007C91 · RGB 0 124 145`

WAQQAD on light; links, rules

Mist

`#F3F5F8 · RGB 243 245 248`

Paper and page grounds

White

`#FFFFFF · RGB 255 255 255`

The logo on navy

Pale core

`#FFE3A8 · RGB 255 227 168`

Inside the flame. Motion only

Versions النسخ

Full colour is the default. Use one colour where printing allows only one ink: stamps, embossing, engraving, fax.

Full colour
full-colour · on white and Mist

On navy
on-dark · navy-bg

One colour, navy
mono-navy

One colour, white
mono-white

Typography الخطوط

Reem Kufi belongs to the logo and is never typed. IBM Plex Sans Arabic and IBM Plex Sans set everything else. All three are free under the SIL Open Font License.

The name · Reem Kufi SemiBold

وقّاد

Outlined in the logo files with a real shadda. Do not retype it; place the file.

Arabic text · IBM Plex Sans Arabic 600 / 400

نظام
الجمعيات

أنظمة تصمد أمام التدقيق، مبنيّة للحوكمة والشفافية.

Latin text · IBM Plex Sans 600 / 400

Governance

Systems that stand up to scrutiny, built for boards and auditors.

Motion: Ignite الحركة: الاشتعال

On screens the spark comes alive. Only the amber diamond moves: it becomes an upright amber flame with a pale core, burns, and settles back. The tiles never move. The files are in motion/.

Rest · Ignite · 0.38 s · Burn · Burn · Settle · 0.5 s

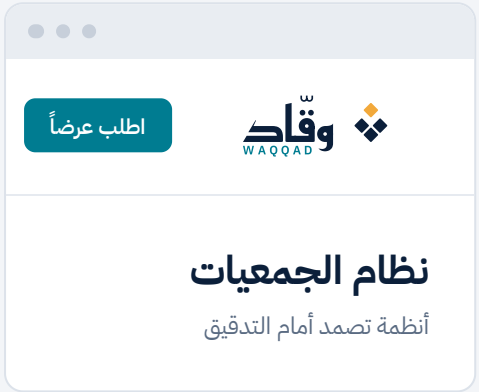

STATE	WHEN	TIMING
Ignite → Burn → Settle	Hover, focus, tap; while loading	0.38 s · 1.1 s loop (core 0.8 s) · 0.5 s
Entrance	Page load, the start of a video	tiles 0–0.7 s · rise to 1.35 s · burn to 3.3 s · settle by 3.8 s
Reduced motion	The viewer asked for less motion	nothing moves

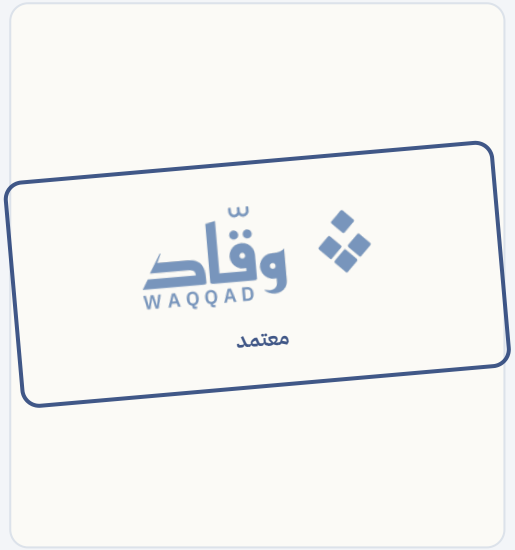

In use التطبيقات

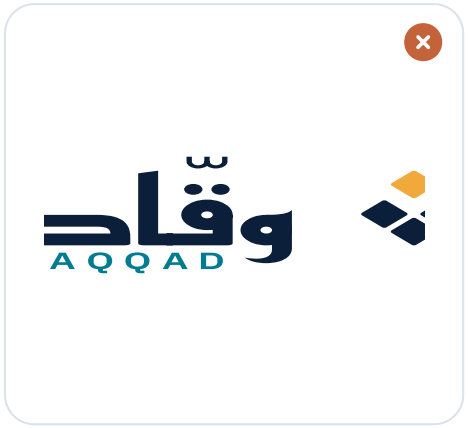

Don't تجنّب

The logo only works if it is always the same. Each of these is drawn for real, so you will recognise it when you see it.

Don't stretch or squash it

Don't recolour the tiles

Don't rotate it

Don't show the flame in print

Don't retype the name

Don't move the symbol to the left

Don't add shadows or outlines

Don't place it on amber or busy colour

Files الملفات

Everything is in the waqqad-logo folder. SVG for screens and print, PNG for office documents, motion for the web and video.
